Hello everyone,

As many of you know, Carolina Canines For Service is an incredibly special organization. We offer benefits that change people's lives in a very dramatic way. Our service dogs are trained individually for up to three years. They provide people with disabilities increased independence at home and in the community.

Our service dogs can:

- Pull wheelchairs
- Open doors
- Carry & retrieve items, including from high counters
- Provide support for walking or transfers
- Turn light switches on/off
- Assist during or after seizures
- Load & unload clothes to washer & dryer
- Assist with household tasks.

A Carolina Canines certified dog is valued at \$40,000 and is placed at NO COST to recipients.

Rick Hairston, the Founder of CCFS, had the vision to understand what a fully-trained certified service dog can mean to a person with disabilities. And now our military establishment is sharing that vision for our Wounded Warriors. Carolina Canines For Veterans is a national program that provides quality trained service dogs for our wounded service men & women... at NO COST to them. The program provides the opportunity for prisoners to learn to train service dogs with the bonus of enhanced self-esteem & increased self-discipline. They develop an awareness of the needs of their disabled comrades, as well as sense of atonement. Rescued dogs from shelters pass strict health & temperament evaluations discovering a new purpose as a service dog.

We have reached out to you for Financial Support through the years.....and WE STILL NEED YOU!!!!

We are asking you now not only to support our mission, but also to join us in that mission.
